EASYGRADE – RTO ASSESSMENT GRADING SYSTEM ADMIN, TRAINER, STUDENT

Plugin type: Blocks
Year: 2022

EASYGRADE MOODLE PLUGIN FEATURES:

Enhance Grading Workflow with EasyGrade Plugin

The EasyGrade Moodle plugin revolutionizes the grading process, catering to the needs of administrators, trainers, and students with its comprehensive set of features.

PLUGIN FEATURES:

Admin Insights:

Admins gain unparalleled visibility into student progress with the ability to review all activity statuses submitted for grading within a unit. Furthermore, administrators can seamlessly assign activities to trainers for efficient grading, streamlining the assessment management process.

Trainer Empowerment:

Trainers can effortlessly monitor student activity statuses submitted for grading within a specific unit. With the EasyGrade plugin, trainers can also send grade notifications directly to students, ensuring timely and effective communication of assessment results.

Student Assessment Status:

Students enjoy greater clarity on their assessment journey, being able to readily check the compliance status of their assignments. When students reach the threshold of 80% assignment submission, they can request a trainer for grading, fostering an interactive and collaborative learning environment.

CUSTOM INTERFACES FOR ENHANCED EXPERIENCE:

The EasyGrade plugin boasts three distinct interfaces tailored to the unique roles of administrators, trainers/assessors, and students. This tailored approach ensures a seamless and intuitive experience for each user group, enhancing engagement and efficiency throughout the grading process.

EXPERIENCE GRADING EXCELLENCE:

EasyGrade redefines grading by combining functionality and user-friendliness. Empowering administrators, trainers, and students alike, this plugin not only optimizes grading procedures but also encourages effective communication and collaboration within the learning ecosystem.

The screenshot displays two views of the EasyGrade Moodle plugin interface. The left view shows a 'Completion Progress' table for a course, listing student names and their progress percentages for various activities. The right view shows a student's dashboard with a 'Completion Progress' widget and navigation options like 'Learner Guide', 'Lectures and other supporting materials', 'Knowledge Assessment', and 'Case Studies / Projects'.

First name / Surname	Progress

Carlin Polack	Student: 0% Trainer: 0%
Chelsea Guilar	Student: 7% Trainer: 0%
Chelsea Conran	Student: 0% Trainer: 0%

CUSTOMCERTIFICATE – RTO CUSTOMIZED AUTOGENERATED CERTIFICATE WITH STUDENT AND RTO IDS

Plugin type: Blocks

Year: 2021

CUSTOMCERTIFICATE MOODLE PLUGIN FEATURES:

The CustomCertificate Moodle plugin brings a seamless certificate generation experience, tailored for administrators and students alike.

PLUGIN FEATURES:

Automated Custom Certificates:

Streamline your certificate issuance process with the ability to automatically generate customized unit completion certificates. This feature ensures that certificates are effortlessly created based on student accomplishments.

Enhanced User Experience:

The plugin introduces a new and improved user interface (UI) and user experience (UX) for custom certificate fields. This enhancement offers a smoother and more intuitive certificate customization process.

Sequential IDs for Certification:

The CustomCertificate plugin includes a sequential identification system derived from RTO (Registered Training Organization) standards. Each certificate is uniquely identified with sequential IDs, integrating crucial information such as course name, student name, student ID, completion date, and signature. This ensures the authenticity and traceability of each certificate.

BENEFIT FROM CUSTOMIZATION AND EFFICIENCY:

With these features, the CustomCertificate plugin empowers administrators to effortlessly generate tailored certificates, providing students with tangible recognition for their accomplishments. The user-friendly interface, coupled with sequential IDs and comprehensive data inclusion, ensures the reliability and value of each certificate issued. Streamline your certificate management process while offering a seamless experience for both administrators and students.

PARENT TEACHER FEEDBACK STUDENT/CHILD PROGRESS IMPROVEMENT

Plugin type: Local
Year: 2019

Plugin to enhance communication between Admin, Teachers, Parents, and Students.

TAWASUL PLUGIN FEATURES:

The TAWASUL Moodle plugin is a communication powerhouse designed to facilitate seamless interactions among administrators, teachers, parents, and students. With tailored features for each role, TAWASUL revolutionizes the way educational stakeholders communicate.

PLUGIN FEATURES:

Empowering Teachers:

Teachers are equipped with the ability to provide invaluable feedback to their students. They can both read and add static/custom feedback within their assigned courses or groups. This personalized approach enhances the teacher-student relationship and fosters a supportive learning environment.

Inclusive Parental Engagement:

Parents are granted access to their child's educational journey through TAWASUL. They can conveniently read and contribute static/custom feedback in their child's courses. This feature bridges the gap between home and school, enabling parents to actively participate in their child's education.

Administrator Oversight:

Administrators wield a comprehensive view of the communication process. They have the privilege of accessing both teacher and parent feedback, ensuring a transparent and efficient information flow within the educational ecosystem.

TAILORED INTERFACES FOR OPTIMAL EXPERIENCE:

TAWASUL excels in personalization, offering distinct interfaces catering to the unique roles of administrators, teachers, parents, and students. This customization ensures that each user group benefits from an intuitive and efficient communication experience.

REVOLUTIONIZING COMMUNICATION

TAWASUL is more than a plugin; it's a conduit for meaningful communication. With its multi-dimensional approach, it empowers teachers to guide students effectively, enables parents to actively support their children's education, and provides administrators with comprehensive oversight. This dynamic plugin transforms how educational stakeholders engage and collaborate for enriched learning experiences.

ADVGRADER (CUSTOMIZED VIEW/FEATURES) SINGLE COURSE / MULTIPLE COURSES

Plugin type: Grade
Year: 2019

Enhancing Grading Flexibility Across Courses

ADVGRADER PLUGIN FEATURES:

The AdvGrader plugin is a versatile solution designed to elevate the grading experience in Moodle. With its customized view and an array of features, it empowers administrators, teachers, and students to interact seamlessly and efficiently within the grading framework.

PLUGIN FEATURES:

Streamlined Category and Item Addition:

This plugin introduces a cohesive group of features centered around categories, items, and grading types. This integration simplifies the process of adding and managing grading elements, promoting consistency and clarity in the grading structure across courses.

Tailored Interfaces for Different Roles:

The Adv Grader plugin is designed with a strong emphasis on user roles. With distinct interfaces for administrators, teachers, and students, the plugin ensures that each user group interacts with the grading system in a way that aligns with their responsibilities and needs.

CUSTOMIZED GRADING EXPERIENCE:

Adv Grader transcends traditional grading methods by offering a tailored experience for administrators, teachers, and students. By facilitating efficient grading element management and providing role-specific interfaces, the plugin creates an environment that fosters effective communication and understanding within the educational ecosystem. With Adv Grader, the grading process becomes a cohesive and intuitive aspect of the learning journey.

PAKTALEM-S3 PLUGIN ENHANCED AWS S3 INTEGRATION

Plugin type: repository
Year: 2017-18

PLUGIN FEATURES:

Experience seamless and efficient integration between your Moodle platform and AWS S3 repository with the Enhanced AWS S3 Integration plugin.

This powerful tool streamlines the process of uploading course resource files to AWS S3, optimizing file management and accessibility for administrators, teachers, and students.

PLUGIN FEATURES:

Direct File Upload to AWS S3 Repository:

The Enhanced AWS S3 Integration plugin empowers users by allowing direct uploading of course resource files to the AWS S3 repository. This functionality ensures a smooth and intuitive process, eliminating unnecessary steps and enhancing user experience.

Managed File Upload to S3 Bucket:

Enjoy a structured and organized approach to file uploads. This plugin facilitates managed file uploads to designated S3 buckets, ensuring that images, media, videos, and audio files are stored separately for enhanced storage management.

Effortless Accessible Links:

Seamlessly retrieve accessible links to S3-stored files within Moodle. The plugin efficiently returns the S3 file link, which is stored in the database, allowing users to access their resources with ease.

Advanced Tracking and Storage Optimization:

Experience enhanced files and user activities tracking, resulting in reduced Moodle data folder size and optimized storage costs. The Enhanced AWS S3 Integration plugin ensures efficient management of resources, mitigating storage-related challenges.

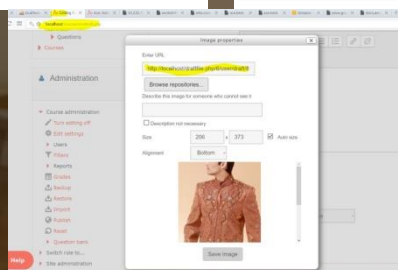

USER-CENTRIC INTERFACES:

The Enhanced AWS S3 Integration plugin prioritizes user roles, providing three distinct interfaces tailored for administrators, teachers, and students. This approach ensures that each user group interacts with the plugin's features in a way that aligns seamlessly with their roles and responsibilities, enhancing the overall file management experience.

Elevate your Moodle platform with the power of the Enhanced AWS S3 Integration plugin, where direct file uploads, managed storage, and optimized accessibility converge to redefine your resource management capabilities.

STUDENT PROGRESS REPORTING 16 CUSTOM FIELDS/FILTERS

Plugin type: Blocks
Year: 2017

COMPREHENSIVE STUDENT PROGRESS REPORTING PLUGIN:

Elevate your learning management system's capabilities with the Student Progress with 16 Custom Fields/Filters plugin. This versatile block-type plugin offers a tailored solution for generating detailed student progress reports based on 16 customizable fields, providing administrators, teachers, and students with valuable insights into learning performance.

PLUGIN FEATURES:

Customized student progress reports:

The Student Progress with 16 Custom Fields/Filters plugin serves as a dynamic reporting tool. It generates a comprehensive array of 16 report types, each uniquely designed to provide insights into student progress within the LMS. This personalized approach allows educators, administrators, and learners to access information that aligns precisely with their needs.

Tailored custom fields/filters:

Unlock the power of customization with this plugin's ability to filter and segment student progress based on 16 distinct fields. These customizable fields offer a granular approach to reporting, enabling users to focus on specific learning dimensions that matter most to them.

DUAL INTERFACES FOR ENHANCED USABILITY:

The plugin's intuitive design ensures optimal usability for administrators, teachers and students or employees. This dual-interface approach caters to varying user roles, ensuring that the reporting process is seamless and user-friendly for all.

Empower your educational ecosystem with the Student Progress with 16 Custom Fields/Filters plugins, where in-depth reporting, customization, and user-centric interfaces converge to provide valuable insights into learning journeys.

PROGRESS ON ATTENDANCE - SESSION

Plugin type: Blocks
Year: 2017

ATTENDANCE AND SESSION PROGRESS TRACKING PLUGIN:

Elevate your learning management system's capabilities with the Progress on Attendance/Session plugin. This robust block-type plugin offers a powerful solution for tracking student attendance and session hours within a course, providing administrators, teachers, and students with valuable insights into engagement and learning progress.

PLUGIN FEATURES:

Comprehensive Attendance and Session Reporting:

The Attendance and Session Progress Tracking plugin empowers educational institutions with detailed attendance and session hour reporting. This invaluable feature offers a holistic view of student engagement, enabling administrators, teachers, and students to monitor participation and commitment.

Student-Centric Attendance Insights:

With the plugin's attendance and hours-spent reporting, students gain a clear understanding of their progress and involvement. This data-driven approach encourages accountability and empowers learners to actively manage their learning experience.

USER-TAILORED INTERFACES:

The plugin provides three distinct interfaces, catering to the unique needs of administrators, teachers, and students. This user-centric approach ensures that each stakeholder gains easy access to relevant attendance and session data, fostering a seamless and efficient experience.

Empower your educational ecosystem with the Attendance and Session Progress Tracking plugin, where accurate attendance reporting, user-friendly interfaces, and valuable insights converge to enhance student engagement and overall learning experiences.

COMPANIES USER TRACKING REPORT

Plugin type: Report
YEAR: 2017

COMPANIES USER TRACKING REPORT PLUGIN:

Experience comprehensive user tracking and reporting capabilities within your Moodle learning environment with the Companies User Tracking Report plugin. This robust report-type plugin, meticulously developed for Moodle 3.5 IOMAD, empowers administrators and educators to gain valuable insights into user engagement, courses, and activities, enhancing performance assessment and management.

PLUGIN FEATURES:

Enhanced User Visibility:

Unlock a detailed view of user engagement by effortlessly displaying company-specific user records within your Moodle platform. Administrators and educators can now monitor individual and collective progress with precision.

Course and Activity Insights:

The plugin goes beyond user tracking, extending its capabilities to showcase courses and activities associated with each company. Gain a holistic understanding of company-wide learning journeys and performance.

SEAMLESS INTEGRATION:

Developed as an advanced version of the old Topyx LMS Plugin, the Companies User Tracking Report plugin flawlessly integrates with Moodle 3.5 IOMAD. This ensures a smooth transition for institutions seeking enhanced user analytics within their existing Moodle environment.

Elevate your reporting capabilities and strategic decision-making with the Companies User Tracking Report plugin. Uncover invaluable data-driven insights to drive engagement, performance, and growth within your corporate or educational setting.

The screenshot displays the Moodle interface for the 'Companies User Tracking Report' plugin. The main view shows a list of users with columns for Name, Number, Company, Online Time, Offline Time, Total Time, and Progress. An Excel spreadsheet is overlaid on the bottom right, showing the data for the selected users.

COURSE POLICY FOR MOODLE VS. 2.6 TO 3.X

Plugin Type: Report
Year: 2016

COURSE POLICY AGREEMENT PLUGIN:

Enhance your Moodle learning environment with the Course Policy Agreement plugin, designed to seamlessly integrate course-level policy agreements for enhanced content access and compliance. This powerful report-type plugin empowers administrators, teachers, and students to ensure that essential course policies are acknowledged and adhered to.

PLUGIN FEATURES:

Course-Level Policy Acceptance:

The Course Policy Agreement plugin revolutionizes course access by implementing a policy agreement step for students. Before accessing course content, students are required to review and accept course-specific policies, ensuring clear understanding and adherence.

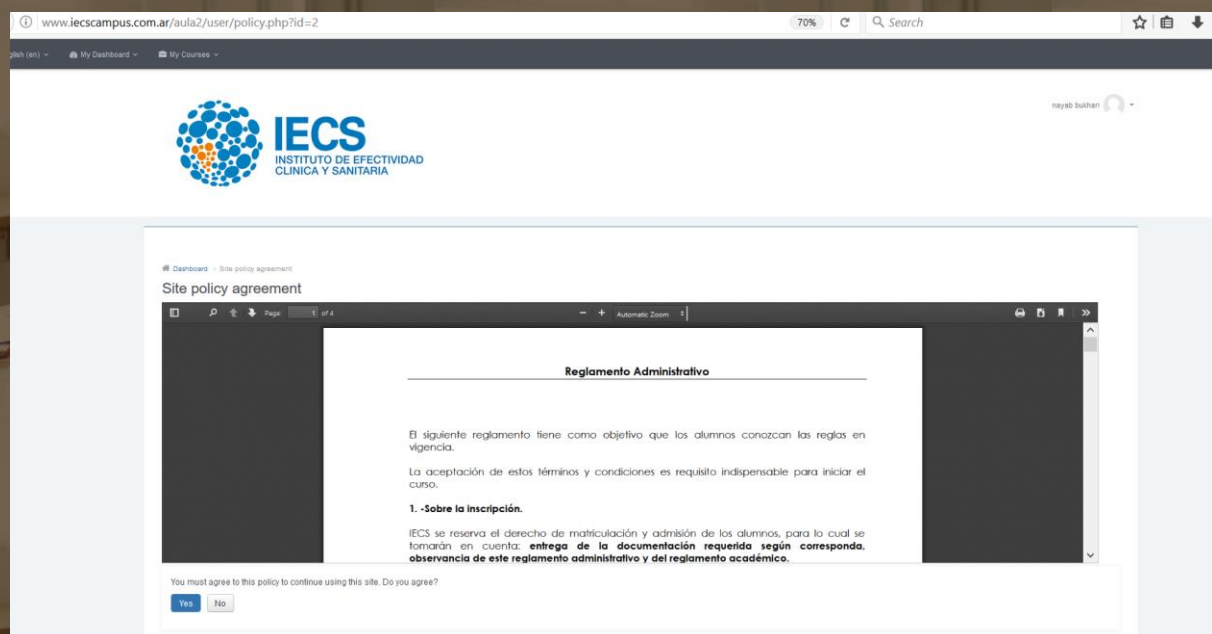

Enhanced Compliance:

With the plugin's policy agreement functionality, educational institutions can establish and reinforce compliance with vital course guidelines and regulations. This feature streamlines the process of communicating and enforcing course policies.

SEAMLESS INTEGRATION:

The plugin integrates seamlessly into Moodle versions 2.6 to 3.x, ensuring compatibility and consistency across different platform iterations. This allows institutions to leverage the benefits of the plugin within their preferred Moodle environment.

Elevate the integrity and compliance of your Moodle courses with the Course Policy Agreement plugin, providing a user-friendly, transparent, and efficient mechanism for students to acknowledge and uphold essential course policies.

The screenshot shows a web browser window displaying a Moodle course page. The URL is www.iecampus.com.ar/aula2/user/policy.php?id=2. The page features the IECS logo (INSTITUTO DE EFECTIVIDAD CLINICA Y SANITARIA) and a user profile for 'nayab buhan'. The main content area shows a 'Site policy agreement' dialog box with the following text:

Reglamento Administrativo

El siguiente reglamento tiene como objetivo que los alumnos conozcan las reglas en vigencia.

La aceptación de estos términos y condiciones es requisito indispensable para iniciar el curso.

1. -Sobre la inscripción.

IECS se reserva el derecho de matriculación y admisión de los alumnos, para lo cual se tomarán en cuenta: **entrega de la documentación requerida según corresponda, observancia de este reglamento administrativo y del reglamento académico.**

At the bottom of the dialog box, there is a question: "You must agree to this policy to continue using this site. Do you agree?" with "Yes" and "No" buttons.

BULK COURSE CREATION TOOL

Plugin type: Blocks
Year: 2013-14

ENHANCED COURSE MANAGEMENT PLUGIN FEATURES:

Experience a streamlined and efficient course management process with the Enhanced Course Management plugin. Designed to empower administrators and teachers, this plugin provides a comprehensive suite of features that elevate the creation and organization of courses within your learning environment.

PLUGIN FEATURES:

Dynamic Course Selection:

Leveraging the power of a data-retired JSON Web Service from a Django/PostgreSQL site, this plugin offers a seamless list of possible course names for selection. Administrators and teachers can effortlessly choose courses from this list, ensuring accuracy and consistency in course creation.

Effortless Batch Course Creation:

With the ability to create multiple courses in a single click, this plugin simplifies the course creation process. Administrators and teachers can efficiently set up numerous courses with just a few clicks, saving valuable time and effort.

Automated Page Generation:

The Enhanced Course Management plugin introduces a powerful tool that generates pages based on each course's lesson activity. This automation minimizes manual effort, ensuring that course content is organized and readily available for learners.

Comprehensive Reporting:

Stay informed and in control with detailed reports. The plugin returns each course ID along with a full list of step reports, including course content fetching, course creation, and the final return of the course ID. This comprehensive reporting provides insights into successful operations and any encountered errors.

OPTIMIZED USER INTERFACES:

The Enhanced Course Management plugin prioritizes user roles by offering two distinct interfaces tailored for administrators and teachers. This approach ensures that each user group interacts with the plugin's features in a way that aligns seamlessly with their responsibilities, enhancing overall course management efficiency.

Unlock the potential of your learning environment with the Enhanced Course Management plugin, where streamlined course creation, automated page generation, and insightful reporting converge to optimize your educational journey.

BRANDING - THEME DEVELOPMENT

Plugin type: Theme

THEME DEVELOPMENT AND CUSTOMIZATION:

Experience a seamless blend of aesthetics and functionality with our meticulously crafted Moodle theme development and customization services. Our expertise spans a range of versatile themes, including Adaptable, Essential, Herald, Gourmet-v3.9, Trending-v3.2, and eLan, as well as various other Moodle-free themes. Elevate your e-learning platform with visually engaging and highly functional themes tailored to your specific needs.

FEATURED THEME PLUGINS:

Adaptable Theme:

Seamlessly adapt to diverse learning environments with the Adaptable theme. Its versatility and user-friendly design make content consumption and engagement effortless for learners across different devices and screens.

Essential Theme:

Elevate the essential aspects of your e-learning platform with the Essential theme. A harmonious blend of simplicity and functionality ensures that learners and educators can navigate and interact seamlessly.

Herald Theme:

Make a bold statement with the Herald theme, offering a contemporary and impactful design. Engage learners with an immersive interface that enhances the overall learning experience.

Gourmet-v3.9 Theme:

Delight learners with the visually appetizing Gourmet-v3.9 theme. Its appealing design not only captures attention but also ensures intuitive navigation, keeping learners focused on the content.

Trending-v3.2 Theme:

Keep pace with the latest trends in e-learning design using the Trending-v3.2 theme. Modern and dynamic, this theme enhances user engagement and interaction.

eLan Theme:

Foster an elegant learning environment with the eLan theme. Its clean lines and sophisticated layout create an atmosphere of focus and engagement for learners.

Our theme development and customization services extend beyond the mentioned themes, encompassing a wide range of Moodle-free themes as well. Elevate the visual appeal, usability, and engagement of your e-learning platform with themes tailored to your brand and content.
